Subject: REACH Declaration

Mabo spa declares, regarding the fulfillment of the obligations established by the REACH Regulation of The European Parliament And of The Council concerning the registration, evaluation, authorization and restriction of REACH chemicals, which as a downstream user of substances, mixtures and articles and producer of articles not intended to release substances during foreseeable use, is not subject to the obligations of pre-registration and registration of substances intended for manufacturers and importers of substances and articles intended to release substances during use.

Mabo spa therefore worked to fulfill his obligations, that is to say:

- check with its suppliers whether the substances, mixtures and articles purchased do not contain SVHC substances included in the authentic "candidate list" published on the ECHA - European Chemicals Agency website <https://echa.europa.eu/it/candidate-list-table> in concentrations higher than 0,1% weight/weight and do not contain substances included in Annexes XIV and XVII of the REACH regulation in concentrations higher than those provided <https://echa.europa.eu/substances-restricted-under-reach>
- verify with its suppliers that for all substances, mixtures and articles subject to REACH, the planned registrations, pre-registrations or requests for authorization have been carried out, by themselves or by upstream subjects, in accordance with articles 7 and 56 of REACH
- verify that the substances used in the manufacture of its products are used under the intended conditions of use for these substances or mixtures.
- in case of non-fulfillment concerning one of the previous points by a supplier, find valid alternatives compliant with REACH in order to guarantee continuity of supplies.
- based on the information received, evaluate the presence of SVHC substances in Mabo spa products supplied to the customer.

Mabo spa therefore guarantees the continuity of supply with regard to all the products in its catalog and declares that they comply with the REACH Regulation.

Based on the information collected from our suppliers, Mabo spa products comply with the REACH regulation with reference to the SVHC substances of the "candidate list" and to the annexes XIV and XVII of the regulation.

In the event of changes to the above, we undertake to inform you in compliance with Article 33 of the REACH Regulation.

For substances, mixtures or articles directly imported from countries outside the EU, Mabo spa ensures that the supplier has appointed an "Exclusive Representative" for the request of the appropriate documentation.

Our REACH contact person, Paola Signorelli (paola@mabo.it) is available for any further clarifications.
